**TERMS:** Terms of the sale are cash or check payable immediately upon conclusion of the sale and before animals will be removed. Bulls can be held at the bull test center until March 15<sup>th</sup>, 2016 at no cost to the buyer.

**RISK:** Each animal becomes the risk of the purchaser as soon as sold. Animals purchased are at the purchaser's risk as to loss or injury, and will be loaded according to purchaser's direction. Insurance will be available.

**TRUCKING:** We encourage everyone to travel as convenient as possible. We will make every effort to assist with trucking arrangements.

**GUARANTEE:** All bulls have been scrotal measured and fertility tested (BSE) by Powerline Genetics' veterinarian. Should any bull fail to breed cows, the matter shall be reported to the seller within six months following sale. The bull will then be returned to the seller who has the right to prove the bull a breeder. If the bull proves to be a non-breeder, the seller will return purchase price or replace the animal with another of equal value in full settlement and satisfaction. In no event shall seller bear responsibility for more than the purchase price. If a bull becomes a non-breeder by reason of injury, negligence or mismanagement, the seller's guarantee shall be void.

**ANNOUNCEMENT:** Announcements from the auction block will take precedence over statements in catalog.

**LIABILITY:** Owners nor sale management assume no liability for any accidents that may occur to the animal after it is sold. All persons who attend the sale do so at their own risk and owners or sale personnel assume no liability for accidents.

**INSURANCE:** Absolutely No Insurance Claim Paid without paid premium. Powerline Genetics has arranged to make available Loss of Use Coverage for the first breeding season for all bulls sold in our spring 2016 bull sales. The coverage will be available sale day for those who choose to insure their bulls. The policy will insure the bulls from the date of sale until September 15, 2016. The coverage will provide traditional full mortality coverage for death from all natural and accidental causes including life-threatening injuries. Claims will be settled at 80 % of the purchase price until July 15, 2016, and 60 % of purchase price after July 15, 2016 through September 15, 2016. All claims will require a veterinarian's examination. Under the Loss of Use extension of Coverage, the bull's inability to naturally service cows must be diagnosed by a veterinarian and immediately reported to Powerline Genetics. A claim shall occur if after fourteen continuous days following the date of diagnosis and first report, the bull cannot be returned to natural service.

**Cost of Coverage:** Powerline Genetics will pay 5 % of the purchase price or one-half the cost of the coverage. Thus, **the cost of coverage to each buyer will be 5 % of the purchase price.** This amount will be added to the cost of your bulls at settlement if the insurance is requested. Buyers who do not request this coverage sale day will not have Loss of Use Coverage available at a later date. Salvage, if any, belongs to Powerline Genetics. Bulls shall be returned to Powerline Genetics Bull test center or Powerline Genetics designated destination before settlement can be made.
